

MOGDEN STW

Customer:	Various
Site Owner:	Thames Water
Approx. Value:	£2.5M +

Mogden STW was originally constructed in the 1930's and is one of Thames Water's largest treatment works, presently designed to support a population of 1.8 million.

Mogden has undergone a number of improvements over the years and, consequently, FSD have worked on many major upgrade projects.

Our customers at this site have included Costain, Black and Veatch, Birse, Engenica, Monsal, Alfa Laval, ERG and Adsyst.

Major schemes completed include:

- Pasteurisation project
- Centrifuges / sludge thickeners
- Site electrical distribution
- Embedded generation scheme
- Sludge heating / mixing
- Fuel containment electrical works
- Digester refurbishment, including lighting and level detection
- Power house recabling
- HV cabling works
- Site-wide communications cabling
